SUMMARY

Software Engineer with experience in C#, .NET Framework, Java, HTML, CSS, JavaScript, and XML. Currently working at Thomson Reuters on Canada tax and compliance solutions. Skilled in application development, automation, and building efficient software solutions in enterprise environments.

ADDITIONAL INFORMATION

- **Technical Skills:** Java, HTML, CSS, Javascript, MySQL, Spring Framework, Spring Security, JPA, JDBC, Hibernate, Python
- **Languages:** English, Hindi, Gujarati

WORK EXPERIENCE

Associate Software Engineer, Thomson Reuters October 2024 – Present

- Working as a Tax Content Programmer in the Canada Forms Team, contributing to the development and maintenance of tax forms and compliance-related software solutions.
- Developing and maintaining tax form applications using C#, .NET Framework, HTML, CSS, JavaScript, and XML technologies.
- Participating in release cycles, quality assurance processes, and production support activities.
- Developed an internal PDF Comparison Tool using C# libraries and frontend technologies to simplify document validation and comparison workflows for the team.

Java Developer, Qrious Tech Team LLP July 2024 - Sep 2024

- Developed backend applications using Java and Spring Boot.
- Created REST APIs and worked with MySQL databases.
- Contributed to web application development and bug fixes.

Software Developer Intern, Qrious Tech Team LLP Jan 2024 - July 2024

- Contributed to web application development using Java, Spring Boot, Js, HTML, CSS, and MySQL.
- Assisted in backend API development and frontend implementation while gaining practical software development.

PROJECTS

Chat Application Using Spring Boot :

- Developed a real-time chat application using Java, Spring Boot, JWT Authentication, and WebSocket.
- Implemented secure user authentication and real-time messaging functionality.
- Organized the project using Spring's architecture, including Entity, DTO, Service, Service Implementation, and Controllers, to ensure maintainable and scalable code.

PDF Comparison Tool (Internal Project) :

- Developed an internal PDF comparison application using C# and .NET technologies.
- Implemented automated document comparison functionality to identify differences between PDF versions.
- Built a frontend interface using HTML, CSS, and JavaScript for document upload and result visualization..

EDUCATION

B.E. - Information Technology June 2020 - June 2024

Saffrony Institute of Technology CGPA: 8.74

H.S.C. May 2018 - May 2020

Uma Vidhyalaya Percentage: 68%

CERTIFICATE

- Java Programming (Growth Ninja)
- Web designing (Udemy)
- Backend development with java (Coursera)
